

Massachusetts Municipal Light Plant Solar Rebate Program

Program Details

The new Massachusetts Municipal Light Plant Solar Rebate Program allows residential customers of municipal light plants, such as the Templeton Municipal Light and Water Plant, to apply for a rebate for the purchase, installation, and usage of PV solar panels on their homes.

The program includes a solar rebate of \$1.20/watt, capped at 50 percent of total installed costs. Eligible solar installations must be 10 kW AC or less, with less than 20% shading, and facing between 90 and 270 degrees. Other restrictions may apply.

How to Apply

Interested customers must obtain pre-approval from TMLWP, then submit an application with the Massachusetts Municipal Wholesale Electric Company (MMWEC), TMLWP's joint action agency. The form can be found online at www.mmwec.org. Customers may call 413-308-1311 to check application status.

Application deadline is December 30, 2020; rebate subject to availability.

Funding for the Massachusetts MLP Solar Rebate Program is limited and it is available on a first come, first served basis. Applicants and system owners are highly encouraged to apply for a rebate and receive a rebate award letter before commencing construction. Costs incurred prior to the receipt of a rebate award letter could be deemed ineligible for the rebate.

Step One

Obtain pre-approval from TMLWP and submit application to MMWEC. Upon successful review, MMWEC will forward it to the Massachusetts Department of Energy Resources (DOER).

Step Two

After the DOER evaluates the application, customers will be notified of their rebate status.

Step Three

Upon approval, customers have one year to schedule and complete installation of their solar panels. The rebate will be paid to the customer by MMWEC.
