Connected Homes EV Incentives

Templeton Municipal Light & Water Plant (TMLWP) customers can get rewarded for driving electric through the NextZero Connected Homes program.

Connected Homes is a program offered to customers of TMLWP that leverages the technology of smart appliances and devices into cost savings for the light department and its customers. The program allows TMLWP to better manage its electric load, reduce costs, and keep rates low.

TMLWP customers can enroll select makes and models of electric vehicles (EVs) and EV chargers into Connected Homes.

By enrolling an EV or EV charger in the Connected Homes Program, TMLWP customers agree to allow Connected Homes to make brief, limited adjustments during times of peak electric demand. The EV or EV charger will be powered off during peak hours.

Customers will be informed of possible adjustments in advance via email and/or text.

Customers who enroll in the program will earn monthly incentives. Connected Homes incentives are paid out quarterly via bill credits.

Eligible EVs and Chargers

EV Charger Brand	Incentive
ChargePoint	\$10
Emporia	\$10

EV Make	Incentive
