

## Enroll Now and Start Earning Rewards

**NEXTZERO**  
EXPERIENCE WHAT'S NEXT

Templeton Municipal Light & Water Plant (TMLWP) customers who own select smart devices, such as Wi-Fi thermostats, are eligible to earn monthly rewards through the NextZero Connected Homes Program.

Connected Homes leverages the technology of smart appliances and devices into cost savings for TMLWP and its customers. The program allows TMLWP to better manage its electric load and reduce costs.

### How the Program Works

By enrolling a smart device in the Connected Homes Program, TMLWP customers agree to allow Connected Homes to make brief, limited adjustments to their devices during times of peak electric demand.

TMLWP customers will be informed of possible adjustments in advance via email and/or text. Customers who enroll in the program will earn monthly incentives. Connected Homes incentives are paid out quarterly via bill credits. The incentive amount earned varies depending on the smart device.

### Enrollment

Enrolling a smart device is easy! Visit [www.NextZero.org/Templeton](http://www.NextZero.org/Templeton) to learn more and to get started. Refer to the table below for a list of eligible devices.
